ID order list of meetings in forntend Posted by Tom16 - 2015/02/03 16:13 Hi, I have a list of meetings in the same order as the ID's. At the frontend they are all mixed up. Is there a way to show them in the right order (ID)? Tom Re: ID order list of meetings in forntend Posted by edwin2win - 2015/04/15 15:26 The order of the meeting is based on the "ordering" field that you have in the back-end and the title of the meeting. To change the order in the back-end, click on the "ordering" column title and re-order the meeting. Re: ID order list of meetings in forntend Posted by holger_es - 2015/04/16 06:45 Hello, I have the MeetingSchedule_unzip_first_V1.0.04 file. However, I do not see all riders as described in the instructions (see picture). This will be the problem. Joomla 3.4.1 Select image file to attach --> don't go. I get a white Site after submit Re: ID order list of meetings in forntend Posted by edwin2win - 2015/04/16 16:48

What do you mean by "riders"? Do you mean tabs?

If you don't see the tabs or the whole page, that may mean that you had a php fatal error or that Joomla

Meeting Schedule for joomla - Generated: 27 June, 2025, 03:22

java script had an error to display the tabs correctly.
